## **About This Game**

Dearest mother and father...

My flight ran into a bit of trouble and I think it will take a while for me to return home. Of course, by a bit of trouble, I actually mean a lot of trouble. And by a while, I actually mean that I may not be able to come back at all.

Why, you ask? Well, there was a pair of heavily armed hijackers and a suicide bomber that managed to get past airport security. Strangely enough, the hijackers and the suicide bomber had conflicting interests, spending roughly an hour arguing where they were going to crash the plane.

Needless to say, the plane was destroyed after they finished arguing. I'm pretty sure everyone that was unfortunate enough to have been a passenger of that flight is gone as well.

I don't know how many days have passed that incident and I don't particularly care. I somehow survived and ended up in a cabin with a sentient houseplant.

## Characters

### Euphemia Edelweiss

The sole survivor of the plane incident.  
Keeps a calm mind, despite her situation.

### Anastasiya Farinosa

The resident houseplant of the cabin.  
A chatty thing with an odd sense of humour.

### Eleanor Elegeia

A neo-siren that occasionally visits the cabin to test new technology. Greatly dislikes mermaids.

### Reverie Sauberungen

A child found sleeping under the sand for reasons unknown. Claims to be a normal young lady.

## Notes

A surreal-ish dark comedy with a length of roughly two hours.  
Has one route and four endings with multiple short branches.

Any resemblance to names and events are *purely coincidental*.

Anime girls talking about lots of possible situations and what would the MC do about them. Thereu2019s also a mythical creature doing research on teleportation. 7/10, enjoyable and the price is fair.. From the screenshots and summary, this game did not turn out at all to be like I expected. I ended up being ranted at for an hour by cute anime girls about how Jews control the media and black people are thugs who deserve to die. Request request pending.. They make you look at the world differently and there is no turning back. PS: Effie is waifu material.. Beware the cute ones. They make you look at the world differently and there is no turning back. PS: Effie is waifu material.. This is. a very weird little visual novel. The protagonist appears to be the lone "survivor" of a terrorist incident involving a plane somewhere over the Indian Ocean (or nearabouts). She awakes on an island in the center of the Indian Ocean. but things may not be what they seem. This is a very esoteric experience. Experience at your own risk.. Beware the cute ones.
